FOR IMMEDIATE RELEASE

Successful Automation of Kaweah Delta Urgent Care with The Poseidon Group's NavigatorWeb Solutions.

NavigatorWeb benefits: Insured compliance with JCAHO, CMS, and HIPAA; optimized reimbursement; consistent documentation; reduced medical errors.

August 15, 2006, (Visalia, CA Southern San Joaquin Valley) – The Poseidon Group, Inc. announced the successful implementation of NavigatorWeb at Kaweah Delta's Urgent Care Centers.

Kaweah Delta Urgent Care Centers, a part of Kaweah Delta Health Care, one of the most progressive health care facilities in Central California, has a goal to create a seamless and efficient system of health care services throughout their network. In continuing to provide their patients with cutting-edge medical technology, Kaweah Delta Urgent Care chose Poseidon Group's NavigatorWeb solutions to enhance productivity, reduce the time and costs of paper charts and continue to manage practice growth.

Kaweah Delta Urgent Care chose Poseidon Group's NavigatorWeb solution based on their increasing need to have a system in place that was not only secure, but easy to maintain and configure. NavigatorWeb's enterprise solution allows both the Urgent Care Centers and Emergency Departments to run off a centralized, web server. Allowing all of the doctor's immediate and accurate access to important patient information from any of the locations throughout the San Joaquin Valley.

NavigatorWeb's enterprise set-up not only greatly reduces server costs, NavigatorWeb also allows QA and management to work hand-in-hand in a much more effective manner. Processes are simplified, as charts stored and retrieved from a single location.

"This is streamlining the flow of the Urgent Care and is improving workers compensation flow with better and more consistent documentation, follow-up, completion of first report and better instructions. Another important feature is consistency with the care of patients between the ED and UCC. **NO LOST RECORDS!** NavigatorWeb also allows us to better track the flow of patients. Helping us to improve turnaround times and to see where the bottlenecks are happening," says Rick Brown RN, ISS Clinical.

The Poseidon Group, Inc. is focused on addressing the needs of healthcare providers by providing documentation and web-based solutions to the healthcare industry. Poseidon's Navigator solutions are currently being utilized in emergency departments (ED) and urgent care centers (UCC) across the United States with annual volumes ranging from 5,000 to 125,000. The Poseidon Group offers two products (a) Navigator PC: an application designed to start ED staff on the migration path to an electronic medical record (EMR); and (b)

NavigatorWeb a comprehensive, web-based EMR. The Poseidon Group's end-to-end and modular solutions can be seamlessly integrated with existing hospital systems, and are proven to deliver shared knowledge and free flow of information to healthcare providers; increased patient satisfaction; consistent high-level documentation; reduction of medical errors; insured compliance with JCAHO, CMS, and HIPAA; increased employee loyalty / moral, and automated data analysis.
